Naval and Government Vessels 1. It is reported that the training ship WILHEIM PIECK is under the command of a 72-year-old captain. great difficulties mamming the former German sailing vessels which were taken over by them. On this account, the former HORST WESSEL has not been taken around to the Black Sea, but is docked in Libau. The same is true of the KOMMODORE JOHNSEN and the PADAU. 2. 3. On the night of 12-13 October, large torpedo boats, apparently Russian, about 9 sea miles south of Porkkala in the Gulf of Finland. The vessels were conducting maneuvers. a two-stack cruiser at about the same position on the night of 18-19 October. In both cases, no specific identification was possible on account of darkness. Russian naval vessels are often encountered in this area. Apparently it is a maneuver area for the Russian naval craft stationed in porkkala. **Commercial Vessels** 4. Two small tankers of approximately 50 meters in length left Sassnitz almost daily for periods of several hours and did not return to the harbor until evening. **General Port Observations** 5. Especially strict harbor isolation and controls were observed in Stralsund. The harbor area is completely enclosed by high board fences. It is only	25X			3.	NCL:	ENC	OF I	IO. O	N(

possible to enter the harbor area through a main entrance which is heavily guarded. At this entrance, crews receive limited passes which must be surrendered upon return through the gate. In Stralsund, resident relatives of the captains were not given permission to come aboard. In Greifswald, the control measures are carried out still more rigorously by the Russians.
